“Our people are the reason for Steamship Mutual’s success”

A comprehensive network of experienced correspondents

Partnerships for better seafarer wellbeing

“...Partnerships were established which enabled support and education of seafarers...”

IGP&I International Group of P&I Clubs

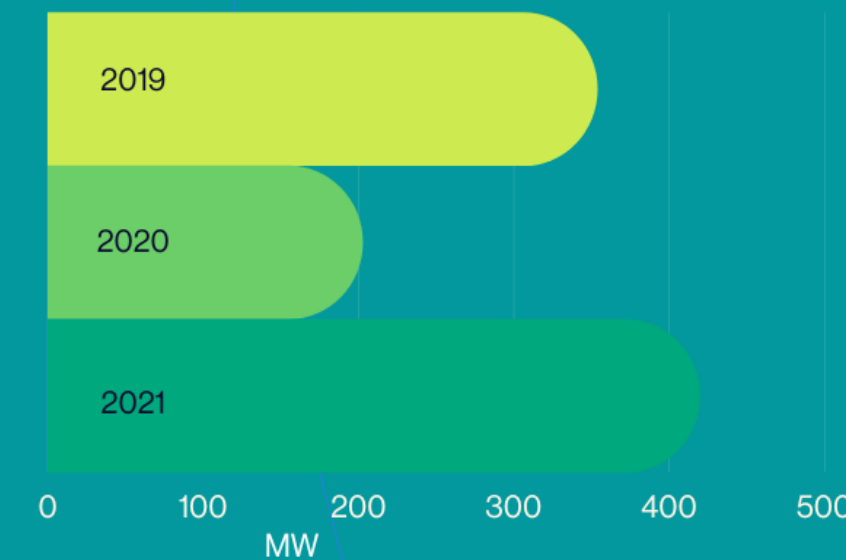

Sustainability of the Club through pooling and collective reinsurance

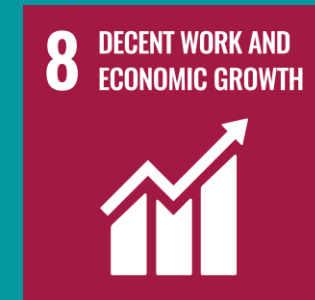

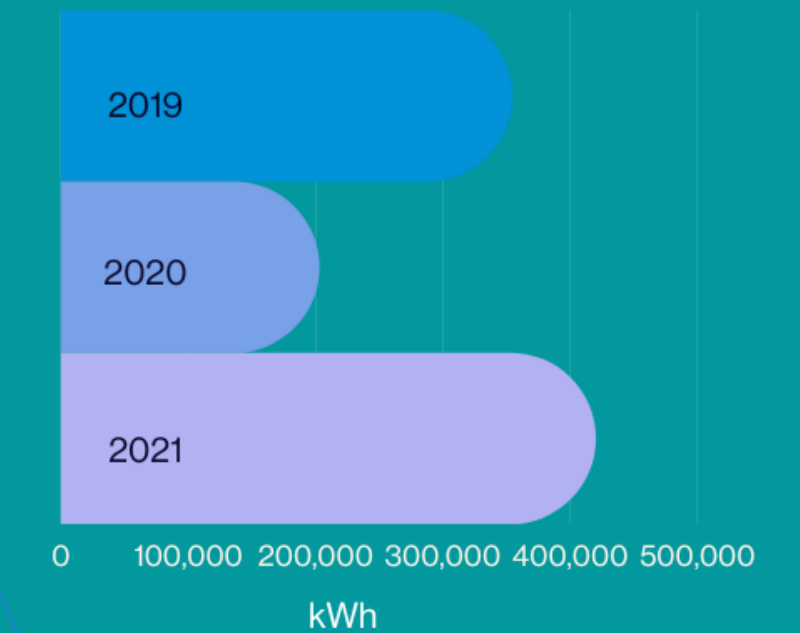

We strive for continuous improvement in operational efficiency whilst reducing reliance on resources and carbon footprint

Electricity

Gas

# Steamship Mutual and Sustainability

The report states expressly that it is:

....is merely the beginning of work that will need to continue. The further work will focus upon issues and operations where there is the potential for more to be done, and thereby identify the gaps that may exist between where matters stand currently, and where we would like them to be in the future, so that sustainability performance can be strengthened. This will involve the development of our sustainability strategy, and quantitative measures to enable future performance to be measured with reference to specified targets

## Our Three Pillars

International Group – International Group Sustainability Committee

Internal – our own sustainability credentials

External – supporting you, our Members

# ESG Support Hub
