

STEAMSHIP MUTUAL

To the Members

April 2005

Dear Sirs,

**MARPOL Annex VI – Prevention of Air Pollution from Ships**  
**CD-ROM and Video Training Programme**

Regulations for the Prevention of Air Pollution from Ships enter into force on 19th May 2005. Annex VI sets limits on sulphur oxide and nitrogen oxide emissions from ship exhausts and prohibits deliberate emissions of ozone-depleting substances.

The Managers of the Association, in association with Videotel Marine International Limited, have produced a training package consisting of a CD-ROM or video and support book designed to help ship operators, officers and crew understand the complexities of the legislation. The package explains the additional documentation that a ship must carry and the restrictions on modifying and servicing engines. It outlines the changes in operating incinerators and the new controls for ozone-depleting substances.

The package offers a comprehensive overview of the new regulations. Although it will be of specific interest to engineering staff, such is the importance of the subject, it has been designed with a much wider audience in mind.

As in the case of earlier productions, Members of the Association are entitled to special concessionary rates, allowing a 20% discount from the standard price for either purchase or rental of this programme. Further details concerning pricing and how to place orders can be obtained from:-

Videotel Marine International,  
84 Newman Street,  
LONDON W1P 3LD  
Tel: +44 0171 299 1800  
Fax: +44 0171 299 1818

When contacting Videotel, and in order to obtain the appropriate discount, Members should confirm their Membership with the Association, with the names of entered vessels for which the programme may be required. Further details may also be obtained from the Managers' London Representatives.

L.34

Yours faithfully,

THE STEAMSHIP MUTUAL UNDERWRITING  
ASSOCIATION LIMITED
