## Domestic Emission Control Areas in China - Early Implementation of Requirements

September 2017

The Maritime Safety Administration of Zhejiang Province has advised that from 1 Sept 2017, all ships (excluding warships/military ships, sport ships/boats, or fishing ships/vessels) are required to use fuel with sulphur content  $\leq 0.5\%m/m$  at all ports within the ECA of Zhejiang Province (except within 1 hour after arrival and within 1 hour before departure).

This notice in Chinese appears on their website
