## China: Special caution needed during navigation due to record low temperatures

February 2018

Club correspondents Huatai have reported that Northern China is experiencing low temperatures resulting in icy seas. The situation varies from port to port, and Huatai's attached circular reports on conditions in various ports in the region. They also have recommendations on how to prepare crew, vessels and equipment for such climatic conditions

Huatai's Dalian office prepared the Circular and their contact details are
