Mississippi River – Anchoring issues and Loss Prevention Advice

March 2020

Club correspondents Independent Maritime Consultants (IMC) of the USA have produced a detailed and comprehensive guide to anchoring issues on the Mississippi River. This includes sections on preparedness; midstream buoy moorings; recommended actions for a fouled/stuck anchor; recommended actions for a lost anchor chain.

IMC's guide can be viewed [here](#).

Our thanks to IMC for preparing this guide.

Remember too that Steamship Mutual has produced a Risk Alert about the Mississippi High River season. Steamship's Risk Alerts can be viewed on the [Loss Prevention](#) page of our website. RA63 about the Mississippi High River season can be viewed [here](#).
