CHANGES IN THIS UPDATE

18/1/2021 5pm

- WA travellers from VIC now allowed but subject to 14 days quarantine on arrival and health checks/COVID testing.
- VIC QLD: No 'red zone' areas remaining 5 Brisbane LGAs converted to 'orange zone' from 6pm on 16/01/21 with entry permitted subject to self-quarantine until a negative COVID test is returned. NSW: 10 Sydney LGAs remain 'red zones' and travellers from these areas will not receive a travel permit unless eligible for Specified Worker Permit. Rest of Greater Sydney and surrounds will downgrade to 'orange zone' from 6pm on 18/01/21 with entry permitted subject to self-quarantine until a negative COVID test is returned.
- SA No restrictions for areas outside NSW. Closed to travellers who have been in Prohibited Locations (Greater Sydney Region, including Wollongong and Central Coast) within past 14 days. Arrivals from other areas of NSW required to self-quarantine for 14 days (from 14/1/21) and submit to testing on days 1.5 and 12. Essential travellers allowed.

Please note - version history provided at the end of the document.

NOTES

This table has been compiled by MIAL for use by our members for guidance only. MIAL is making this resource available to the entire maritime community to assist the sector as best we can at this incredibly difficult time. It is based on our best known information and understanding at the time of publication and is subject to frequent updates. Requirements are determined by legislative instruments issued by state, territory and commonwealth governments and advice should be sought in relation to specific circumstances.

Domestic travel: There are variable and changeable requirements for travellers entering states / territories from other states / territories that can include (with or without exemptions for essential travellers) hard border closure, 14 days directed quarantine or 14 days self-quarantine. These restrictions on the movement across domestic borders can be removed or reimposed in line with COVID-19 outbreak events.

This table does not include detailed information relating to cruise ship operations. Please see the CRUISE page.

Maritime workers returning home (via air or land) who have been working in another state	High-risk areas Tasmania has declared the NSW Northern Beaches Local Government Area and the Brisbane region, including the LGAs of Brisbane, Moreton Bay, Ipswich, Redlands and Logan as high-risk areas. Several premises in Victoria have also been declared as high-risk for people who attended during specified times. See High risk areas and premises. Maritime crew who have spent time in high-risk areas require pre-approval from the Deputy State Controller to enter Tasmania and must monitor their health for COVID-19 symptoms. Must lodge applications using the G2G PASS system between 3 and 14 days prior to arrival. Medium-risk areas Tasmania has declared the Greater Sydney Region and Wollongong LGA to be medium-risk. Travellers who have spent time in the Greater Sydney Region in the 14 days prior to arrival in Tasmania are required to quarantine, either in a suitable premises or in government-designated quarantine. Must lodge application using the G2G PASS system between 3 and 14 days prior to arrival. Maritime crew returning from medium-risk areas, can apply for a class III exemption to be exempted from quarantine as long as they have been at sea for 14 days since last crew member joined. Can request a full or partial exemption from quarantine by submitting an Essential Traveller application where travel required for work. Travellers who have completed a Tas e-Travel registration who have been in NSW since Friday 11 December 2020 will have their pass cancelled and will need to reapply.	Public Health Act Direction Under Section 16 (arrival requirements for certain travellers into Tasmania – No. 3) Directions in relation to persons arriving in Tasmania High risk areas and premises Maritime Crew Class Exemptions Essential Traveller application All travellers entering Tasmania must register travel on the Tas e-Travel before arrival.

CRUISE

Suspension on cruise ships extended to 17 March 2021

The Minister for Health, Greg Hunt has <u>announced</u> a further extension to the human biosecurity emergency period for an additional three months, from 17 December 2020 – 17 March 20021. The extension enables the Minister for Health to continue to exercise the emergency powers under the Commonwealth Biosecurity Act to prevent or control the spread of COVID-19.

The Biosecurity (Human Biosecurity Emergency) (Human Coronavirus with Pandemic Potential) (Emergency Requirements for Cruise Ships) Determination 2020 for the operation of cruise ships in Australia includes:

- · Restricting the entry of cruise ships into Australian territory and entry at Australian ports; and
- · Continuing the application of these restrictions to cruise ships capable of carrying 100 or more passengers. These arrangements are under constant review as the COVID-19 situation evolves, and will be revised based on updated health advice.

The full Fact Sheet from ABF is attached.

CLIA has additional information in relation to the cruise industry, including the current suspension on cruise arrivals in place. Click here to visit their website.

Version History

18/1/2021

- WA travellers from VIC now allowed but subject to 14 days quarantine on arrival and health checks/COVID testing.
- VIC QLD: No 'red zone' areas remaining 5 Brisbane LGAs converted to 'orange zone' from 6pm on 16/01/21 with entry permitted subject to self-quarantine until a negative COVID test is returned. NSW: 10 Sydney LGAs remain 'red zones' and travellers from these areas will not receive a travel permit unless eligible for Specified Worker Permit. Rest of Greater Sydney and surrounds will downgrade to 'orange zone' from 6pm on 18/01/21 with entry permitted subject to self-quarantine until a negative COVID test is returned.
- SA No restrictions for areas outside NSW. Closed to travellers who have been in Prohibited Locations (Greater Sydney Region, including Wollongong and Central Coast) within past 14 days. Arrivals from other areas of NSW required to self-quarantine for 14 days (from 14/1/21) and submit to testing on days 1, 5 and 12. Essential travellers allowed.

12/1/2021

- VIC a new Victorian Travel Permit System has been introduced. Every person entering Vic must obtain a permit. Greater Sydney and surrounds including Wollongong and Greater Brisbane and surrounds are 'red zones' and travellers from these areas will not receive a travel permit unless eligible for Specified Worker Permit.
- NT Greater Brisbane Area hotspots declared inactive border now open to Queensland with no restrictions. Greater Sydney Region hotspots reduced to 9 LGAs.

9/1/2021

- SA New Cross Border Travel Direction No. 27. The Greater Brisbane Area is now categorized as a 'high community transmission zone', with self-isolation and testing requirements applicable.
- WA New directions relating to the QLD outbreak.
- VIC Victoria has designated several LGA's in the Greater Brisbane Area as Red Zones.

8/1/2021

- TAS: Tasmania has declared the Brisbane region as a high-risk area, including the LGAs of Brisbane, Moreton Bay, Ipswich, Redlands and Logan.
- WA: Border will be shut to arrivals from Queensland as of midnight on Friday 8 January 2021. Exemptions remain available.
- NT: Five Queensland LGAs added to list of hotspots. Can enter NT subject to mandatory supervised quarantine.

Page | **24** 18/1/2021 5pm

7/1/2021

- TAS: Further Victorian premises added to list of 'high risk' prem travellers who have visited these places at the specified times cannot enter Tasmania unless via Essential Traveller exemption. Great Sydney and Wollongong LGA added to medium risk areas. Updated links to directions.
- QLD: Queensland residents returning from declared hotspot must undertake hotel quarantine for 14 days from the date they arrive. Other residents returning from NSW must complete Queensland Border Declaration Pass but do not have to quarantine.
- · WA: Protocols for receiving Dental or Medical care included.
- NZ: Ref to one-way travel bubble and need to take Quarantine Free flights included.

2/1/2021

- WA: Border closed to VIC 31/12/2020.
- VIC: Border with NSW closed from 2/1/2021.
- NT: 7 new LGAs in Greater Sydney area added to Hotspot list (hotspot = 14 days quarantine).
- SA: Border with NSW closed 1/1/2021 essential travellers allowed with approval

23/12/2020

- NSW: New Maritime Order (no 4) allows crew change crew to use hire cars and emphasises that shore based persons working on board should spend the minimum amount of time possible onboard. New Air Transport Order (No.4) no impact on maritime. Removal of restrictions for travellers from SA.
- WA: WA announced that border will open to SA on 24/12/2020 i.e. no guarantine for travellers from SA.
- ABF: Fact Sheet noting a change of Act that gives powers to restrict crew on board (i.e. no shore leave).

22/12/2020

- Vic: Entry from NSW with Victorian Border Crossing Permit (not available if have been in the Northern Beaches, Greater Sydney or Central Coast).
- NT: Sydney Northern Beaches LGA declared as a COVID 19 Hotspot. Mandatory supervised quarantine for anyone that visited hotspot in the past 14 days.
- TAS: Syd Northern Beaches LGA declared as a high-risk area (essential traveller quarantine required); and Greater Sydney as a medium-risk (essential traveller quarantine exemption possible).
- SA: New Cross Border Travel Direction (No. 25). NSW Northern Beaches LGA is a prohibited location the border is closed to people from that location.
 Arrivals from Greater Sydney Region, the Central Coast or the City of Wollongong must self-quarantine for 14 days since they were last in those locations.
- QLD: New Border Direction (No.20). Greater Sydney (35 LGAs) declared as a COVID-19 Hotspot the border is closed to anyone who has been in that area in
 the last 14 days. Maritime crew can enter under the Maritime Crew Protocol.
- WA: WA has closed the border to anyone who has been in NSW within 14 days of entry, except approved travellers. Maritime crew are not permitted unless
 entering via vessel.

18/12/2020

- NT: NT has declared the Sydney Northern Beaches LGA as a COVID 19 Hotspot
- TAS: Tasmania has declared high risk areas in NSW related to the Sydney Northern Beaches outbreak.
- SA: New Cross Border Travel Direction (No. 22).
- QLD: New Border Direction (No.19). QLD has declared locations in NSW related to the Sydney Northern Beaches outbreak as COVID-19 Hotspots.
- VIC: Victoria has revoked the cross-border permit scheme for travellers from SA and introduced a similar scheme for travellers from NSW that will be in
 place from midnight 18 December.
- WA: people from or transiting through NSW must now quarantine/self isolate for 14 days. People that arrived between 11 17 Dec must undertake a COVID test and self isolate until the result is known.

10/12/2020

- . TAS: one location in SA designated as high risk if the traveller has visited between 13 and 28 November
- SA: Adelaide airport is now accepting international passenger flights
- VIC: Melbourne airport is now accepting international passenger flights.
- ACT: repealed its requirements for an online declaration for travellers from SA
- WA: SA now listed as restricted location- people can enter but must quarantine/self isolate. VIC & NSW: no quarantine required.
- CRUISE: Ban extended until 17 March 2021
- Visas: Govt processing centre closures over Christmas announced. MCV applications must be received by 10/12/2020

4/12/2020

- TAS: Tasmania has now classified South Australia as low-risk, which means all travellers can enter Tasmania from SA without quarantine, but must register travel on the <u>Tas e-Travel</u> system.
- VIC: International flights to land in Melbourne again from 8 December 2020.
- SA: International flights are currently not landing in Adelaide. Circumstances to be reviewed on 8 December 2020
- WA: WAPOL reverse previous advice vessel crew from SA NOT allowed to enter if joining a non-affected vessel. Decision re NSW to move to very low risk (no quarantine) from 8/12/20 delayed until 7/12/20.
