

STEAMSHIP MUTUAL

To the Members

June 2010

Dear Sirs,

LOSS PREVENTION POSTERS - ENGINE ROOM SAFETY

During the course of vessel surveys, it is sometimes apparent that conditions in machinery spaces may increase the risk of accidents, including personal injury. This set of loss prevention posters, when prominently displayed on board ship, is designed to raise awareness of some of these risks. The posters underline proper practice in relation to safety guards and personal protective equipment for use with grinding machines, the securing of floor plates, the stowage and securing of chemicals and the cleanliness of machinery, associated pipes and lagging.

The posters have been produced with the financial support of The Ship Safety Trust and copies are enclosed. Further copies, if required may be obtained on application to the Managers' London representatives, or downloaded from the Loss Prevention page of the club's website.
