

US DEPARTMENT OF THE TREASURY PRESS CENTRE – 29 AUGUST 2014

WASHINGTON – Today, the U.S. Department of the Treasury announced actions targeting a diverse set of entities and individuals under various Iran-related authorities, targeting Iran’s missile and nuclear programs, sanctions evasion efforts, and support for terrorism. The Department of State also announced additional actions under its authorities.

These actions reflect the United States’ sustained commitment to enforce our sanctions as the P5+1 and Iran work toward a comprehensive solution to address the international community’s concerns over Iran’s nuclear program. More specifically:

- Treasury designated four individuals and two entities pursuant to Executive Order (E.O.) 13382, which targets proliferators of weapons of mass destruction (WMD) and their supporters. Treasury also identified two aliases used by a previously sanctioned key Iranian missile proliferator.
- Treasury designated two entities and three individuals tied to Iran’s energy industry pursuant to E.O. 13645. Treasury also identified six vessels pursuant to this authority.
- Treasury designated one entity pursuant to E.O. 13622 for its provision of material support to the Central Bank of Iran in connection with the purchase or acquisition of U.S. dollar bank notes by the Government of Iran.
- Treasury identified five Iranian banks that are subject to sanctions under E.O. 13599, which blocks the property and interests in property of the Government of Iran and Iranian financial institutions.
- Treasury designated four entities and one individual pursuant to E.O. 13224 in connection with Iran’s support for terrorism. Treasury also identified one alias used by an Iranian airline that was previously sanctioned under this E.O.

“Treasury’s action against over 25 entities and individuals – who are involved in expanding Iran’s proliferation program, supporting terrorism in the region, and helping Iran evade U.S. and international sanctions – reflects our continuing determination to take action against anyone, anywhere, who violates our sanctions,” said Under Secretary for Terrorism and Financial Intelligence David S. Cohen. “During this JPOA extension period, as we fulfill our commitment to provide targeted sanctions relief, we remain committed to enforcing existing sanctions against Iran.”

As a result of today’s action, U.S. persons are now generally prohibited from engaging in transactions with the designated parties listed below and all property and interests in property under U.S. jurisdiction in which the designees below have an interest in are blocked. In addition, foreign persons that are found to be facilitating deceptive transactions for any persons subject to Iran-related sanctions, such as those listed today, could themselves be exposed to sanctions under E.O. 13608.

WMD-Related Actions under E.O. 13382

Mohammad Javad Imanirad and Arman Imanirad

Mohammad Javad Imanirad and Arman Imanirad are being designated for acting for or on behalf of designated Iranian company, Aluminat. Aluminat, which was designated in May 2013 under E.O. 13382, is an Iranian entity involved in the procurement of aluminum products for Iran's nuclear program. For several years, Aluminat has provided centrifuge components to Kalaye Electric Company and the Iran Centrifuge Technology Company (TESA), which were designated under E.O. 13382 in February 2007 and November 2011, respectively.

Mohammad Javad Imanirad is the Managing Director and founder of Aluminat. Arman Imanirad represents Aluminat in placing orders from foreign suppliers for aluminum. He also facilitates financial transfers related to procurement, often in U.S. dollars, on behalf of Aluminat.

Nefertiti Shipping

Nefertiti Shipping is being designated for its ties to the Islamic Republic of Iran Shipping Lines (IRISL), which was designated in September 2008 for providing logistical services to Iran's Ministry of Defense and Armed Forces Logistics (MODAFL). Nefertiti Shipping is IRISL's agent in Egypt. In this capacity, Nefertiti Shipping provides services to the National Iranian Tanker Company (NITC) and NITC-operated oil tankers transiting the Suez Canal that are known to carry crude oil to Syria. Nefertiti Shipping assisted NITC in obtaining a favorable exchange rate for transfers either to Nefertiti Shipping's UAE dirham-denominated account or its euro or U.S. dollar-denominated accounts. NITC was identified as being part of the Government of Iran in July 2012.

Sazeh Morakab, Ali Gholami, Marzieh Bozorg, and New Aliases of Shahid Hemmat Industrial Group

Sazeh Morakab is being designated for providing services to Shahid Hemmat Industrial Group (SHIG) and Iran's Aircraft Manufacturing Industrial Company (HESA). Sazeh Morakab's Managing Director, Ali Gholami, and Commercial Manager, Marzieh Bozorg, are also being designated today for acting for or on behalf of Sazeh Morakab. As of late 2012, Sazeh Morakab held established contracts with HESA and procured composite materials on HESA's behalf. Sazeh Morakab has also helped procure carbon fiber for SHIG.

SHIG was included in the Annex to E.O. 13382 and is tied to Iran's ballistic missile research, development and production activities. HESA was designated in September 2008 pursuant to E.O. 13382, and conducts research on the production of, development of, and flight operations for unmanned aerial vehicles (UAVs).

SHIG continues to use cover companies to obscure its procurement-related activities including its recent acquisition of metal alloys and controllers. Treasury today is identifying Sahand Aluminum Parts Industrial Company (SAPICO) and Ardalan Machineries Company (ARMACO) as two aliases used by this key Iranian missile proliferator.
