Arabian Gulf Incident

Since 01. JAN 2025

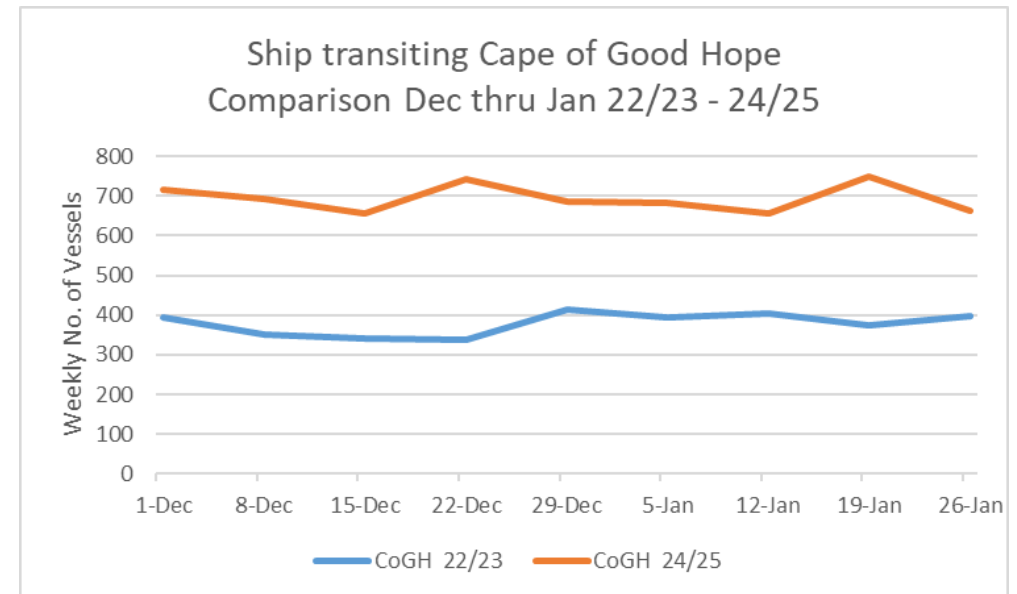

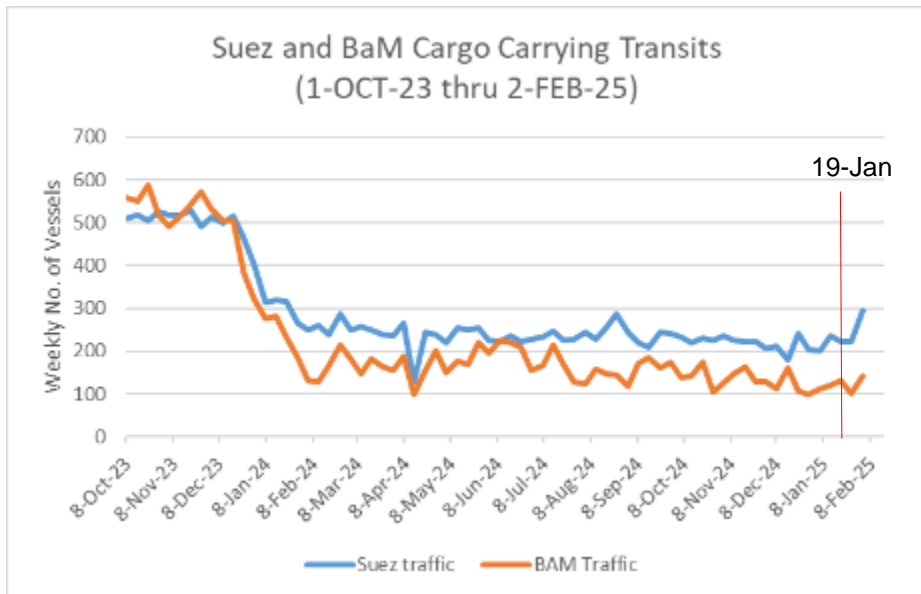

JMIC Monthly assessment: January 2025

The Red Sea and Gulf of Aden remain at Risk

It has been two-weeks since the January 19th, 2025 Houthis announcement to partially end Red Sea attacks to shipping industry. Since that date, JMIC has not received any reports of hostile Houthi activity (Drones, Missiles) towards the maritime that would be considered a threat. JMIC continues to track all AIS reported transits through the Bab-El Mandeb for cargo carrying vessels. There have been no significant changes in volume as the numbers remain fairly consistent. JMIC will continue to monitor changes and report. Though inactivity could be considered as an improvement in maritime security, JMIC assesses the threat to merchant vessels has not changed and recommends industry remain vigilant.

Houthi Related Incidents Involving Merchant Vessels

Between 19th November 2023 – 02nd December 2024 (Last reported incident)

Incidents by Vessel Type

Incidents by Assessed Association

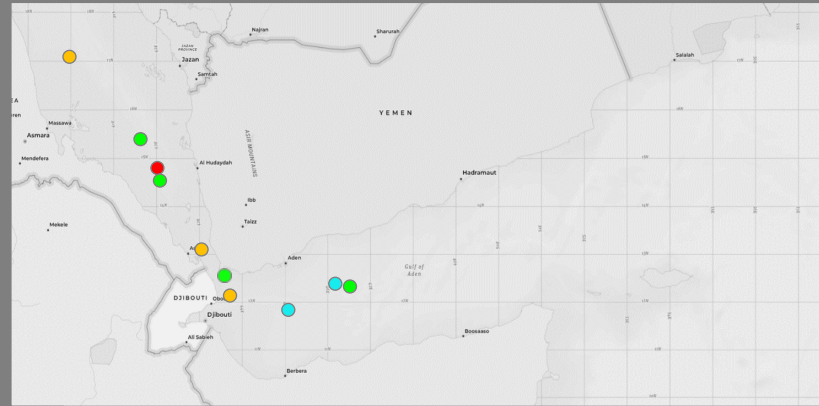

Direct Association: The vessel itself has made a recent port call to Israel, or the Owner, Operator, Charterer, Manager or Flag State is Israeli, US or UK.
No Direct Association: Other vessels within the company structure that have made one or more recent port calls to Israel.

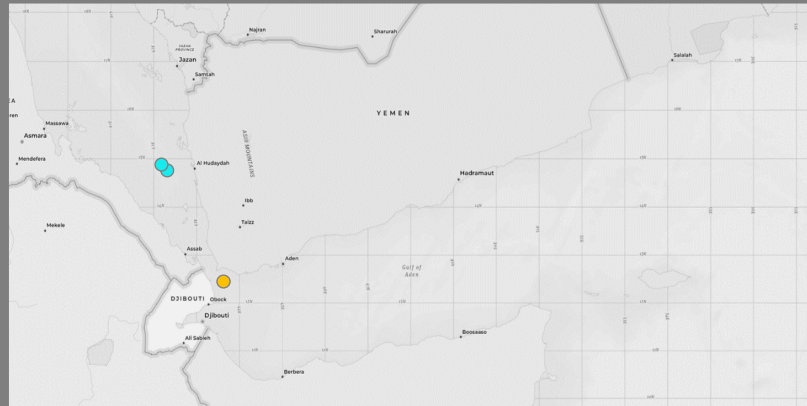

Month by Month Comparison of Incidents (Last 6 months)

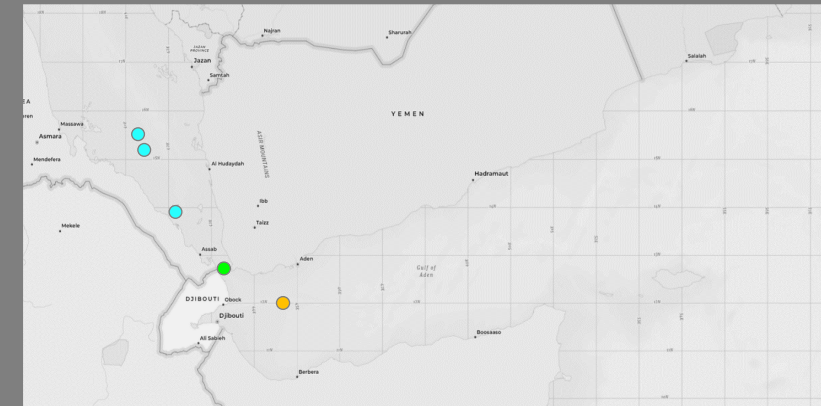

AUGUST 2024 (11 Incidents)

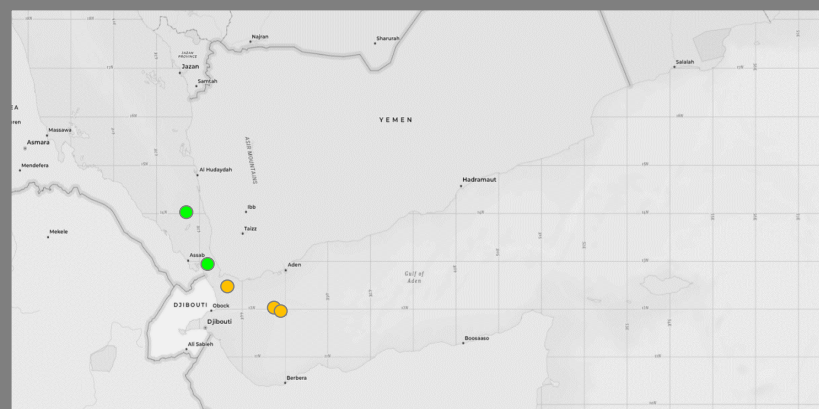

SEPTEMBER 2024 (3 Incidents)

OCTOBER 2024 (5 Incidents)

NOVEMBER 2024 (5 Incidents)

DECEMBER 2024 (1 Incidents)

JANUARY 2025 (2 Incidents)

Observations and Assessments

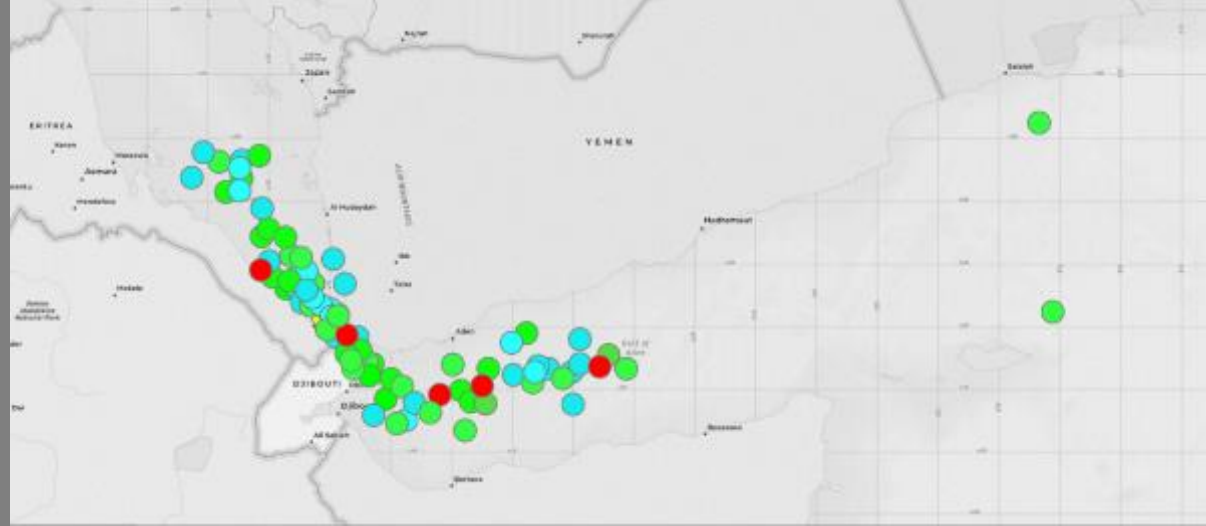

January 2025 is the first month since November 2023 with no identified Houthi incidents towards commercial maritime industry. JMIC has not received any reports of hostile Houthi activity (Drones, Missiles) towards the maritime industry that would be considered a threat (+60 days), but JMIC assesses the overall threat to merchant vessels transiting the Red Sea, BaM and GoA has not changed and recommends industry remain vigilant.

JMIC reported Incidents in the Red Sea, GoA and Indian Ocean by Type

19th November 2023 – 02nd December 2024 (Last reported incident)

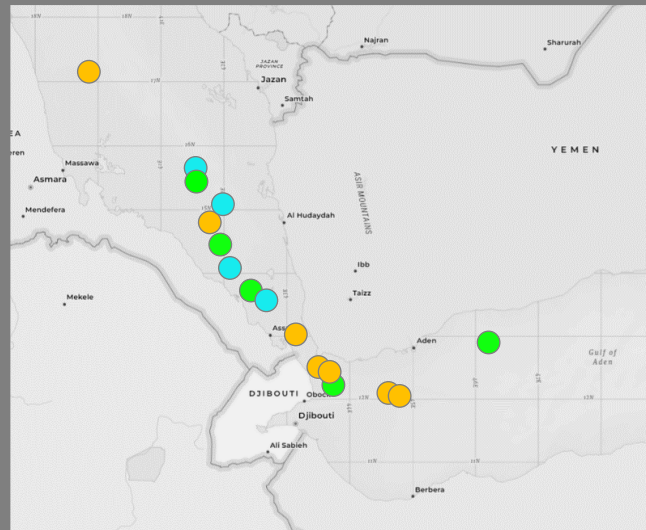

MISSILE (83 incidents)

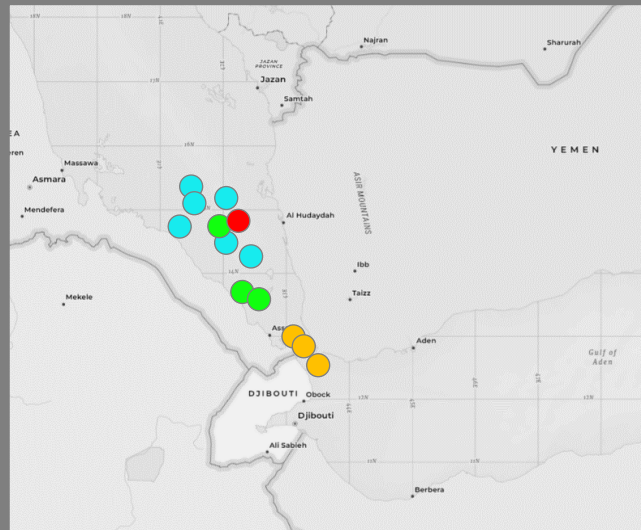

UAV (18 incidents)

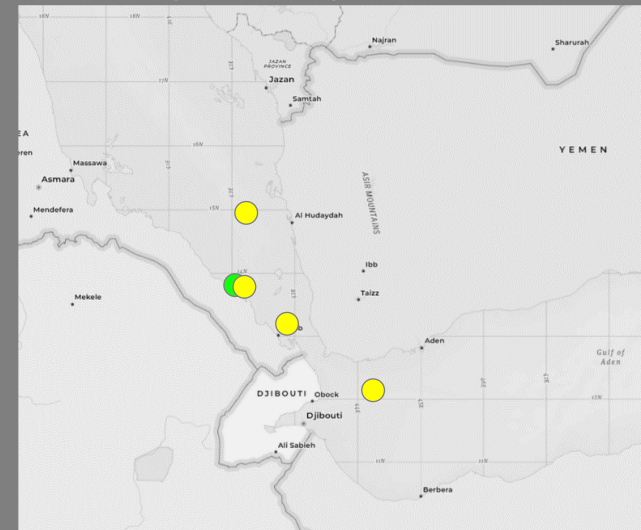

SMALL CRAFT (18 incidents)

USV (13 incidents)

HIJACK (5 incidents)

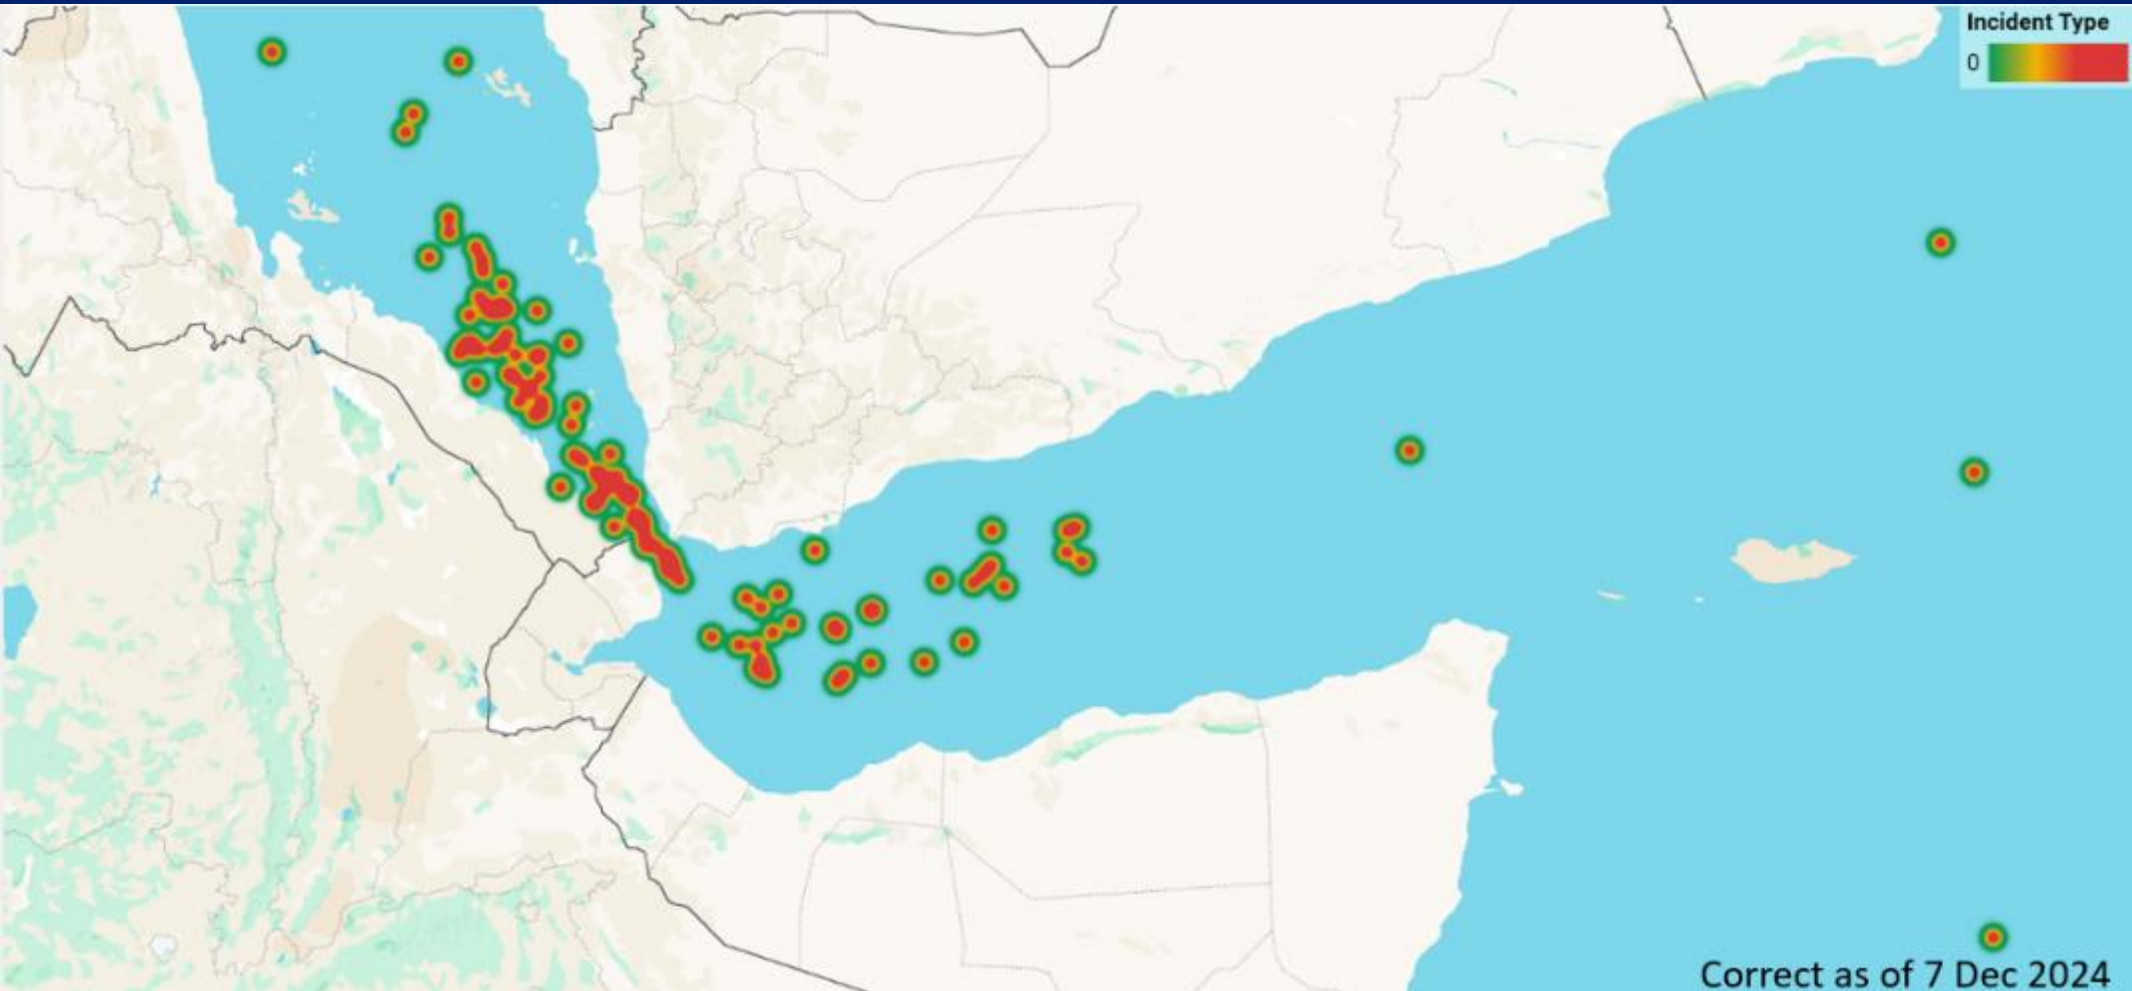

Note:
Incidents with more than one incident-type will appear in all applicable charts

Heatmap of Incidents and Suspicious Activities

Between 19th November 2023 – 07nd December 2024 (Last reported incident)

Note:

All positions shown are approximate and only presented for the purpose of highlighting the frequency of incidents

Trending of Incidents Involving Merchant Vessels

19th November 2023 – 02nd December 2024 (Last reported incident)

Week-on-Week Comparison of All Reported Houthi Activity Towards Merchant Vessels (since 19 November 2023)

Month-on-Month Comparison of All Reported Houthi Activity Towards Merchant Vessels (since 19 Nov 2023)

Observations and Assessments
 Based on trending, the number of Houthi attacks on merchant vessels last week was below average. Refer to the 'JMIC Guidance to Industry' slide. Week-on-Week and Month-on-Month average displayed as red dotted line. This will be updated to reflect values for the current reporting period.

Definitions – Incident types

General Categories	Explanatory Notes
Attack (Serious Incident)	The result of a deliberate launching of weapons (i.e missiles, drones), and/or ramming into a vessel that results in serious damage to the vessel. The attack is deemed serious if any resulting damage impacts the vessel's ability to continue functioning, which requires immediate assistance. It includes a vessel deemed a total loss, and significant threat to lives.
Attack (Minor Incident)	The result of a deliberate launching of weapons (i.e missiles, drones), and/or ramming into a vessel that results in either a miss or minor damage to the vessel. The attack is deemed minor if any resulting damage does not impact the vessel's ability to continue functioning and/or does not require immediate assistance.
Attempted Attack/Targeted	<p>This refers to the act of targeting a vessel with the use of force that results in a miss and no damage to the vessel.</p> <ul style="list-style-type: none"> • Any use of force including but not limited to launching of weapons (i.e. missiles, drones), and/or ramming into the vessel. • No damage may include but not limited to missile ditching, and/or coalition warships shooting down missiles and/or drones.
Hijack	Is where attackers have illegally boarded and taken control of a ship against the crew's will.
Suspicious Activities	This refers to any act of activity near the vessel that is enough to warrant suspicion. To include aerial, surface, and subsurface activities.
SOLAS-related Event	A SOLAS event in this terms refers to a major safety related event (Including but not limited to: Fire/Flooding/Capsizing) which is not due to an attack. This is reported by JMIC solely to avoid speculations about if this was an harmful activity towards a merchant vessel or not.
