Financial Results

The Reports and Accounts of Steamship Mutual Underwriting Association Limited, The Steamship Mutual Underwriting Association (Bermuda) Limited, The Steamship Mutual Trust and Steamship Mutual Underwriting Association (Europe) Limited were approved by their respective Directors at their Board Meetings.

The Directors noted an improvement in the underwriting performance with a financial year combined ratio of 95.4%. The positive underwriting outcome reflected favourable claims development for claims within retention for both prior years and the 2022 policy year. There was notable deterioration in the costs of prior year IG pool claims, albeit mitigated by a benign claims experience for the 2022 policy year.

Gross investment returns in the 2022/23 financial year recorded a loss of US\$26.8 million or 2.4% driven by mark-to-market losses reflecting rising interest rates.

Steamship's financial strength remains one of the strongest in the International Group with assets of US\$1.1 billion, free reserves of US\$454 million and a combined ratio of 95.4%.

2023/24 Renewal

The Board decided upon a 7.5% general increase. Mutual premium, including the value of adjusted terms, increased by 6.6%.

At renewal, 2.8 million GT of new mutual business was entered, much of which came from the transfer of vessels from existing Members. These new entries (including new chartered business) were from Members based in Germany, Greece, Italy, Singapore, South Korea, Switzerland, Turkey, UK and USA. The Managers are very grateful for the confidence in the Club which these entries reflect.
