The Steamship Edit

Supporting Members Through Change, Risk and Opportunity

This edition highlights the breadth of support we provide Members across claims, legal developments, loss prevention and risk management. Our focus remains on delivering practical guidance that helps Members make informed decisions and maintain our dedication to being a specialist P&I Insurer.

During this year we have strengthened our teams with long standing staff taking on additional responsibilities but also by introducing experienced leaders into the organisation. I would particularly like to highlight Hiroaki Sawabe joining us as CEO in the Tokyo office and Stuart Edmonston taking on the role of Loss Prevention Director in London.

Hiroaki Sawabe
Tokyo CEO

Stuart Edmonston
Loss Prevention Director

Beyond our publications, we continue to engage directly with Members through seminars and industry events around the world. By combining technical expertise, practical insight and strong partnerships, we help Members anticipate risk, navigate complexity and operate with confidence.

"The focus remains firmly on helping Members operate safely, protecting both people and assets, and equipping them to make informed decisions in a changing landscape."

Jonathan Andrews
CEO
